Estatistics for March/2011

April 1, 2011

Arina

In this brief document we show the usage of arina during March. This month 19356 computing days where used and the the average use of the cluster was 83 %. Since the first of June 70696 computing days where used and the the average use of the cluster was 78 %. The figure shows the usage of Arina along the month. In the first table the usage of each user is shown. The third column indicates all the time each user has used for calculation during this month. The fourth column shows the average time that each job was waiting before the it started running, in days units. In the second table, the same data as in table 1 collected by group is shown.

Figure 1: Cluster use. The blue line is a 24 hours average.

Table 1: Calculated time and waiting time in days of the users.

Pendulo

This month 905 computing days where used in **Pendulo** and the the average use of the cluster was 41 %. Since the first of December 1202 computing days where used and the the average use of the cluster was 12 %. The figure shows the usage of Pendulo along the month. In the first table the usage of each user is shown. The third column indicates all the time each user has used for calculation during this month. The fourth column shows the average time that each job was waiting before the it started running, in days units. In the second table, the same data as in table 1 collected by group is shown.

Figure 2: Cluster use. The blue line is a 24 hours average.

Table 3: Calculated time and waiting time in days of the users.

USER	GROUP	Calculated Days	Waiting Time
qovzaxxr	qofcm	639.97	1.77
jtppragg	jtjob	222.80	0.44
mtpmafel	mtgfa	22.35	4.06
bcpdiaro	zoicu	10.51	0.18
jtpeiizi	jtjob	9.63	0.05

Table 4: Calculated time and waiting time in days of the groups.

GROUP	Calculated Days	Waiting Time
qofcm	639.97	1.77
jtjob	232.42	0.43
mtgfa	22.35	4.06
zoicu	10.51	0.18
