Estatistics for December/2017

January 5, 2018

Arina

In this brief document we show the usage of arina during December. This month 70491 computing days where used and the the average use of the cluster was 61 %. Since the first of December 69571 computing days where used and the the average use of the Arina cluster was 60 %. The figure shows the usage of Arina along the month. In the first table the usage of each user is shown. The third column indicates all the time each user has used for calculation during this month. The fourth column shows the average time that each job was waiting before the it started running, in days units. In the second table, the same data as in table 1 collected by group is shown.

Figure 1: Cluster use. The blue line is a 24 hours average.

Table 1: Calculated time and waiting time in days of the users.
