## InMed-2014

### Welcome to Innovation in Medicine and Healthcare 2014!

The **KES International Conference on Innovation in Medicine and Healthcare** (InMed-14) will gather a multi-disciplinary group consisting of researchers and engineers, managers, students and practitioners from the medical arena, to discuss the ways that innovation, knowledge exchange and enterprise can be applied to issues relating to medicine, surgery, healthcare and the issues of an ageing population.

A central theme of the conference will be **Smart Medical and Healthcare Systems** which will cover the ways in which modern intelligent systems contribute to the solution of problems faced by healthcare and medical practitioners today, addressing the application of these systems through all of the strands of the event.

### Call for Papers

High quality papers are requested within the [scope of the conference](#). Full papers will be peer reviewed, and if accepted and presented, they will appear in the proceedings. The proceedings will be published in the [IOS Press](#) series [Studies in Health Technology and Informatics](#). The series has been accepted by MEDLINE/PubMed, Scopus, EMCare, Book Citation Index - Science and Thomson Reuters' Conference Proceedings Citation Index' (*publishers information*).

Alternatively, authors may choose to submit a short paper, which will be presented but will not appear in the proceedings.

### Call Proposals for Invited Sessions and Workshops

We invite senior researchers or managers who have a special interest in a specific conference topic to submit proposals for a special session of six papers, gathering articles from colleagues and managing the review process. For more details see the [invited sessions page](#).

### The Location

The conference will take place in the city of San Sebastián or Donostia, a vibrant city presiding over the beautiful Bay of Biscay in the North of Spain, near the border with France. Donostia is an important city of commerce and tourism in the heartlands of the Basques and is proud of its Basque traditions and language. The city may be more familiar to the outside world through its Spanish name, San Sebastián, site of the famous annual San Sebastián International Film Festival. The agreeable climate and the scenic views have long proved a draw for many visitors, from ordinary families to international film stars. In recognition of this, the city has been selected as European Capital of Culture for 2016 (jointly with Wrocław, Poland).

### The Organisers

**InMed'14** is organised by [KES International](#) in partnership with the [University of the Basque Country UPV/EHU](#) and the [Institute of Knowledge Transfer](#).

### San Sebastian, Spain 9-11 July 2014
