LASCARAY RESEARCH CENTRE

The Lascaray Research Centre opened on 26 November 2009 aiming to ensure and promote research and teaching and transferring knowledge to the productive sector.

It is located in the centre of the Campus of Álava, at Avenida Miguel de Unamuno 3, 01006 Vitoria-Gasteiz. Contact tel.: (34) 945014500.

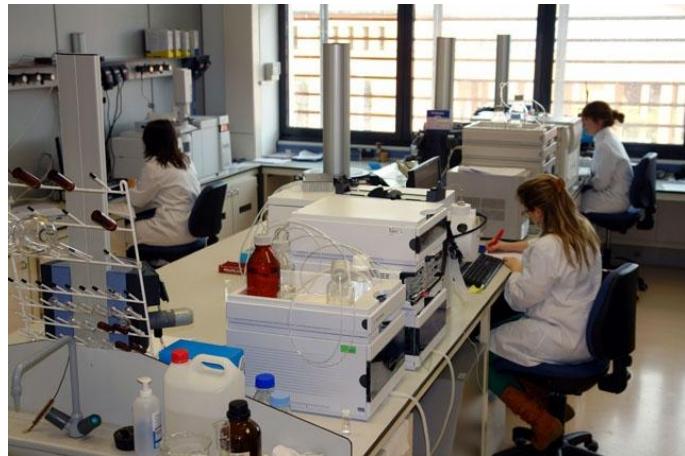

It has a provisional Coordination Body for the integration of the services and activities of the Centre and serves as representative of the Vice Rector's Office of the Álava Campus.

The Coordinator is Professor Marian M. de Pancorbo, and the Coordinator's Advisor is Professor Jorge Martínez Quesada.

This is a pioneer building in environmental sustainability because it has a geothermal exchange system that takes advantage of the ground's thermal inertia.

The Lascaray Ikergunea Research Centre houses research of the highest excellence. The spaces are occupied by 16 groups of investigators, General Research Services (SGIker) of the Álava Campus and a business incubator.

In addition to the research facilities, the Centre has spaces for training, administration and a multimedia laboratory. The Groups and General Research Services are located in the Centre in laboratories equipped with the latest scientific equipment. The Centre also has common research areas, whose use is accessible to all groups and services located in the Centre.

Events attracting large numbers of the public, such as the Science Week or the Employment Fair have The Lascaray Centre as their headquarters, where also numerous acts and UPV/EHU prize awarding events take place (Campus of Álava). Information about activities and users of the Centre can be found on: www.ehu.eus/lascarayikergunea or www.ehu.eus – Campus of Álava.

STRATEGIC LINES

Mission

Generate and transmit knowledge through the development of advanced and innovative research lines, in Biosciences and Quality of Life, contributing in the near future to improving people's wellbeing. The Strategic Lines addressed are: Pharmaceutical Development, Forensic Science, Food Safety and Quality, Nanotechnology and gene therapy, Parasitology and Immunoallergy; Nutrition; Pathophysiology (heart related) Aging Prevention (neurodegenerative diseases and advanced cell therapy) and Biodiversity.

Vision

Become a center of international reference in research and training in Biosciences and Quality of Life. With its current capacity and future potential, the Center's will join Euskampus Excellence in Research activities and expand internationally by signing agreements with national and international scientific institutions and networks.

Values

- Scientific and innovative capacity
- Commitment
- Cooperation
- Trust
- Critical Spirit
- Innovation and sustainability
- Social responsibility
- Scientific rigor
- Excellence

Objectives

- Generate knowledge in Biosciences and Quality of Life.
- Promote high qualification training.
- Encourage incorporation of post-doctoral and young researchers to the Center.
- Strengthen its facilities and equipment.
- Implement a Quality Plan to ensure management certification and procedure accreditation.
- Promote cooperation amongst the Center's Research Groups.
- Increase current results regarding excellence indicators: dissertations, research projects, patents and publications.
- Become a scientific-technical benchmark.
- Transfer knowledge derived from research.
- Foster collaboration with companies and generate agreements at the international, state and/or local level with agencies/institutions, etc.
- Boost internationalization of the Center's image and participation in national and international networks.
- Pass the benefits from this type of Center on to society.

LASCARAY ACTIVITIES

LASCARAY ACTIVITIES

Apart from activities, courses, masters and meetings conducted by the Research Groups at Lascaray Ikergunea Research Centre, other seminars and events have been carried out by the Campus and the Centre organisers. These activities have helped to establish relations among Lascaray researchers and promote the culture of entrepreneurship within the University community.

Further information about the activities as well as videos and photos of the events are available at www.ehu.eus/lascarayikergunea

Lunch with Science at Lascaray

"Lunch with Science" was an activity carried out in 2015, where young researchers shared the experiences and strategies that have led them to consolidate their position and introduce their most relevant research lines.

The aim of this activity is to show the dynamics of work to consolidate a research career; the audience targeted is students interested in research and development, young researchers in training process and, in general, lecturers/researchers from the university community. During the sessions, pizza and refreshments were offered to attendees.

In 2016, 4 lunches have taken place, each with an average attendance of 30 people.

24th of February

- "Can cancer and ageing be tackled with the same tools?"
- Speaker: Mr. Ander Matheu, Head of the Cellular Oncology Team of the Biodonostia Health Research Institute.

20th of April

- ""POINT-OF-CARE" Devices with intelligent materials"
- Speaker: Mr. Fernando Benito-LópezDr. Fernando Benito-López (Ramón & Cajal Fellow). Member of the Analytical Microsystems & Materials for Lab-on-a-Chip (AMMa-LOAC) Group and the Microfluidics cluster of the UPV/EHU.

15th of June

- "When the immune system meets the heart: Will this be a case of love...?"
- Speaker: Mr. Emiliano H. Medei, from Carlos Chagas Filho Institute of Biophysics

(Universidade Federal do Rio de Janeiro).

26th of October

- "Translational research: a 3-act story"
- Speaker: Mr. Gorka Orive, Associate Professor of Pharmacy & Pharmaceutical Technology Networking Biomedical Research Center on Bioengineering, Biomaterials and Nanomedicine, CIBER-BBN, Faculty of Pharmacy (UPV /EHU).

Scientific Sessions of Lascaray Research Groups

In the course of this year, several scientific sessions have been held by the Centre Research Groups. The aim has been the presentation of some of the latests and more relevant international publications of each Group, so as to facilitate the sharing of such work with the rest of researchers of the Centre.

16th of March

- "Translational approaches in bladder cancer: from -omic signatures to individual candidates".
- Research group: Translational Oncology.
- Speaker: Marta Sánchez-Carbayo, Ikerbasque Research Professor.

25th of April

- "Geographical medicine and Diseases in developing countries. Tropical, imported diseases and diseases in travellers".
- Research group: Parasitology and Inmunoallergy.
- Speakers:

- Rosario Melero-Alcibar, Specialist in Medical Entomology. Fundación IO, Madrid,
- Oihane Martin, Clinical Parasitologist. Microbiology and Parasitology Service. Ramón & Cajal Hospital, Madrid, and Associate Professor. Immunology, Microbiology and Parasitology Department. Faculty of Pharmacy. UPV/EHU.
- Ana Patricia González, 4th-year student. Degree in Pharmacy. UPV/EHU.

17th Research Conferences by the OSI Araba and the Alava University Campus. "Research for better living"

On 19th of March, the 17th Research Conferences by the OSI Araba and the Alava University Campus of the UPV/EHU were held at the European Convention Centre. The purpose of the conferences was to show professionals and citizens the research carried out in Alava.

In the morning conferences, professionals were organised in 8 research areas, and as a "workshop" and in small work groups, they discussed experiences and research projects, with the aim to exchange ideas that could generate collaboration in R+D+I to enable joint actions.

The afternoon conferences dealt with "Los retos del envejecimiento saludable fue un encuentro con la ciudadanía," / "Healthy ageing challenges became a meeting with citizenship". The objective was to facilitate a meeting forum among professionals developing their research activity at the UPV/EHU, at BIOARABA Research Institute and citizenship in general, this last one as the beneficiary of advances taking place.

Several researches from the Lascaray Research Centre took part both in the organisation Committee and the Scientific Committee of the conferences, and many others took part in various workshops.

Jornadas de emprendimiento INIZIA Arabacampus 2016

In the framework of the agreement to promote entrepreneurship signed between BIC Araba and the Alava Campus, the INIZIA Arabacampus program is to be found. This program is devoted to the development of activities focusing on the generation and promotion of the entrepreneurial culture in the university community, as well as on the provision of those entrepreneurial projects coming from technology transfer processes and the management of innovation with infrastructures and basic equipment.

Throughout the year, several conferences and entrepreneurship workshops have taken place within the INIZIA Arabacampus Program at Lascaray:

5th of May

- "Basic concepts and practical approach to industrial and intellectual property"
- Speaker: GALBAIAN Intellectual Property

16th of September

- Agile generation of business models"
- Speaker: Innobide

5th of October

- "Agile prototyping of sale processes"
- Speaker: Innobide

14th of December

- "Develop your marketing strategy"
- Speaker: Aitor Díaz Lucas - AD CONSULTORES

December 2016

- "Experiencial workshop to generate business models for researchers"
- Speaker: Aitor Díaz Lucas - AD CONSULTORES

INIZIA-AGUDEZIA Workshop

The [Inizia-Agudezia Entrepreneurial workshop](#), enjoyed, in its 2016 edition, the participation of 12 students and former students from different Faculties/Schools. Conducted by the A+g Consultores de Gestión, S.Coop team, and taught using their methodological BIZIKIRO Living Management approach.

Uniemprendedor INIZIA-6th Edition Prize-giving ceremony

The Vicerrectorate of Álava Campus has continued developing, throughout the year, activities to promote entrepreneurial culture within the university environment under the INIZIA ArabaCampus programme.

One of these events has involved the organisation of the 6th edition of the Uniemprendedor INIZIA prize-giving ceremony where the following prizes/awards were awarded in the event that took place on the 23rd of November:

FIRST AWARD of 2,000 € for project "Gastheiz, Cerveza de patata" (Potato beer)

The project is based on the marketing of Gastheiz, potato beer from Alava. It is really not potato beer, it is meant to be a tribute as Gastheiz is a symbol of pride to be from Alava, a trophy for beer lovers to be able to toast and share the essence of Vitoria with the rest of the world.

SECOND AWARD of 1,000 € for project "Development of Biosensors and Assistance Devices"

It is a portable technological device capable of fusing physiological elements and electrical systems to analyse and detect anomalies during physical performance.

An ACCESIT of 500 € for project "Eternal Clinic"

It is a health centre managed by a Hydrologist Physician where a series of thermal techniques are offered and where by taking advantage of physical and chemical properties of mineral-medicinal waters, it is possible to contribute to the improvement and maintenance of health from a therapeutical point of view, from the field of prevention and from the promotion of health and personal autonomy.

Volunteer Fair 2016

The Volunteer Fair of the University of the Basque Country UPV/EHU was held, on 20th April, at Lascaray, the II meeting point among social entities and university students with the aim to sensitize and train students in this area ([website of the Fair](#)).

The main objectives were:

- to encourage social participation among the university community
- to visualize and voice the work carried out by social entities in our environment.
- to contribute towards the recognition of the work developed by volunteers
- to disseminate values linked to volunteers (compromise, social responsibility, solidarity...)

Master Astea 2016

On 9th March, the MASTER ASTEA 2016 was held at the Lascaray Research Centre of the Álava Campus.

During the session, those interested in studying the Master had the opportunity to find out about the University of the Basque Country UPV/EHU postgraduate studies for 2016/2017. Apart from information stands, sessions to introduce different masters were held, where students had the chance to solve doubts directly with the Master lecturers. Also information on grants and scholarships or mobility was available.

Multimedia Authoring Workshop in Álava Campus (LEMMCA)

The Centre has a multimedia room with 11 computers to support teaching activities, to develop teaching material by the research and teaching staff, to support research activities and to conduct training courses for lecturers. In 2014 different sessions of the Forensic Analysis Master of the University of the Basque Country (UPV/EHU) were taught.

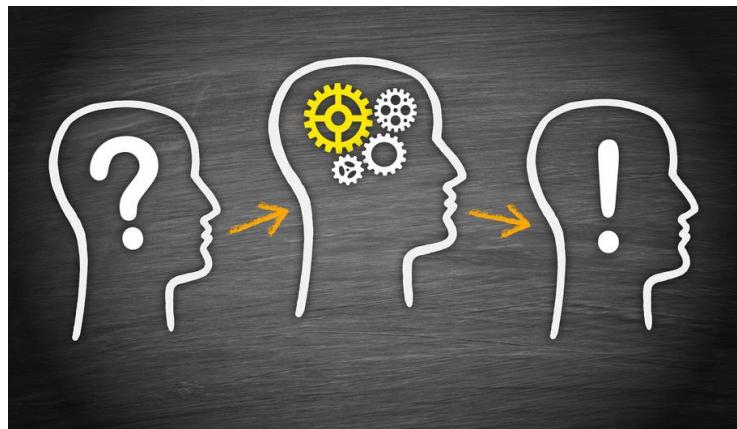

It is also a place of reference and support for technicians and audiovisual services in the Campus with the aim to carry out activities focusing on the practical training of the university community.

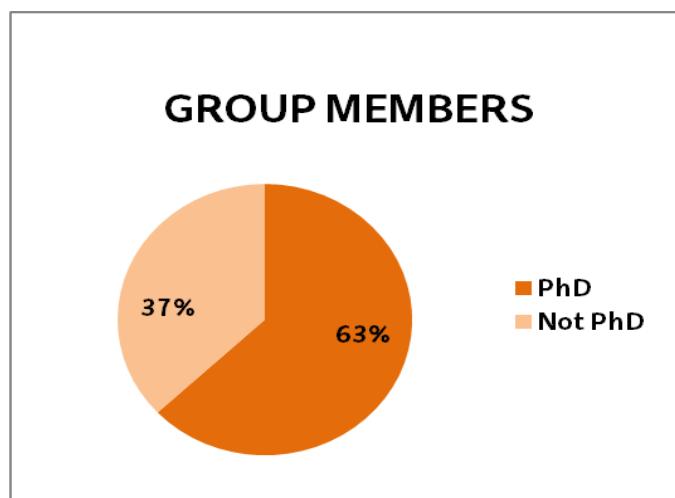

LASCARAY IN FIGURES

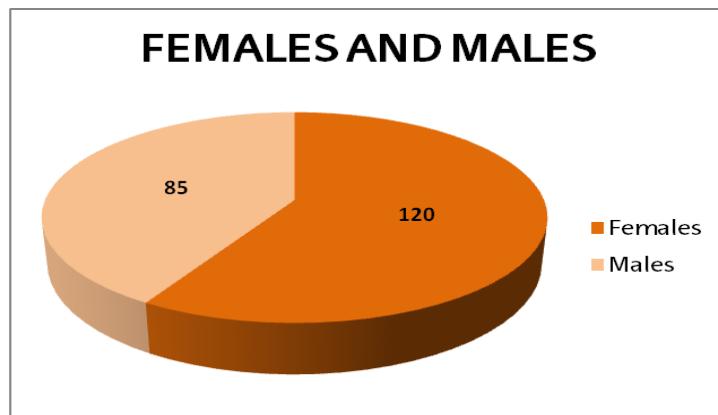

GROUP MEMBERS

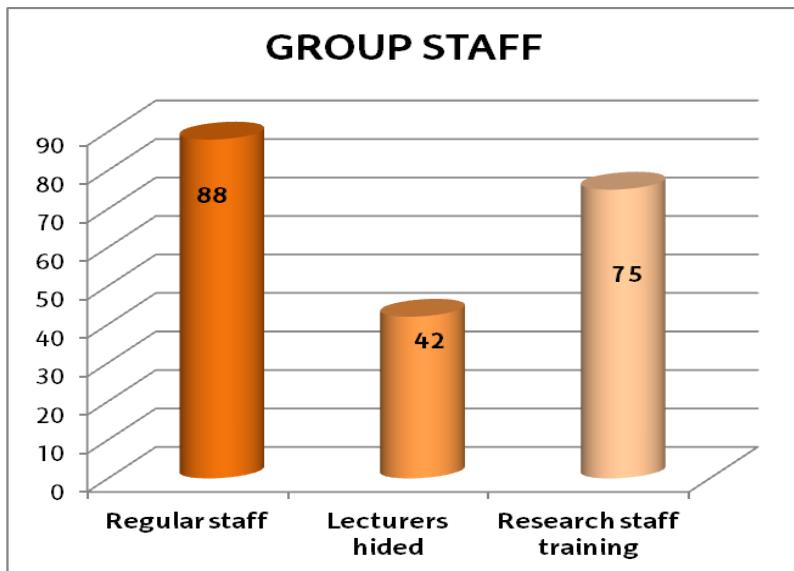

205 researchers worked in the 16 Lascaray Research Centre Groups in 2016. The number of researchers has considerably increased since the opening of the Centre, which means that projects and activities conducted are also significantly increasing.

By sex, women are more than half of the research personnel in the centre.

The research staff is classified into three types, as show below:

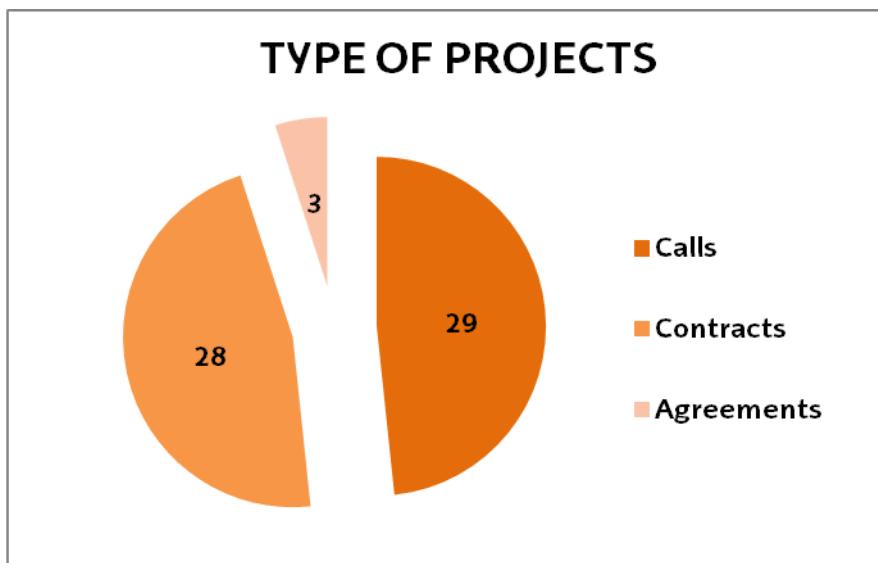

Staff on the UPV/EHU payroll (Professor Staff and Tenured Faculty, Ramon y Cajal, Ikerbasque Programmes and Juan de la Cierva), Contract PhD Staff and Research Staff in Training (predoctoral and/or fellows).

PROJECTS

Types of projects according to the sources of funding

In 2016 the Centre Groups initiated 60 new research projects, for which funding has been obtained through different sources such as Calls/tenders, Contracts and Agreements.

43% of projects started this year corresponds to calls for a competitive basis of award, mainly public calls (national and regional). On the other hand, 37% of them has come from contracts with administrations, foundations and private entities.

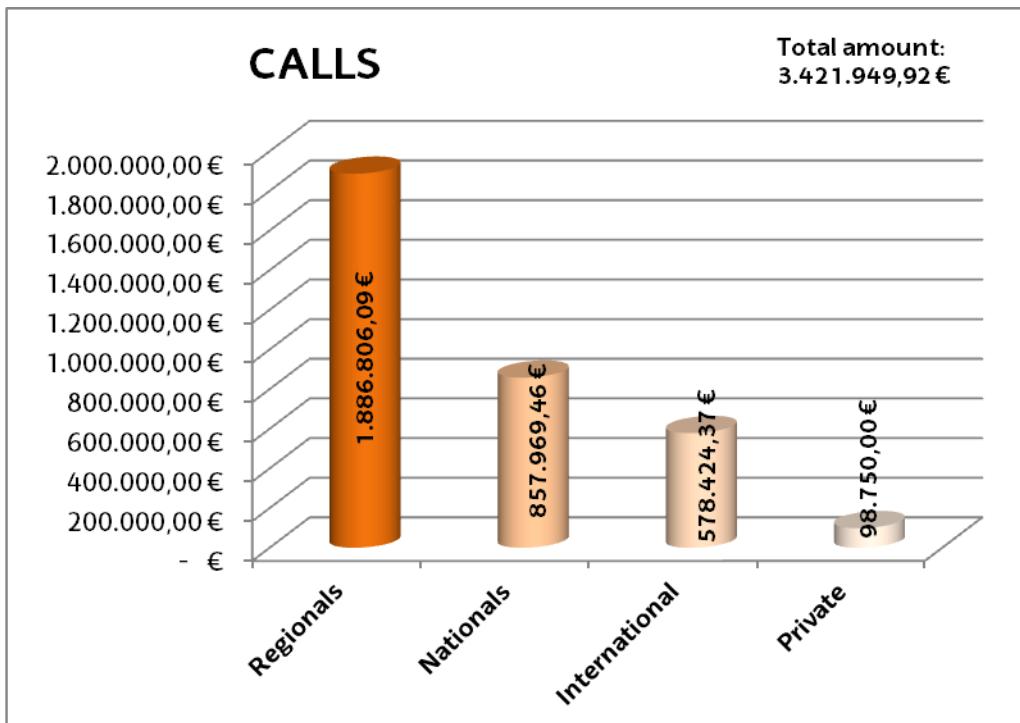

The Groups maintained a total of 87 projects in force in 2016, including those initiated this year.

Projects classified by amount

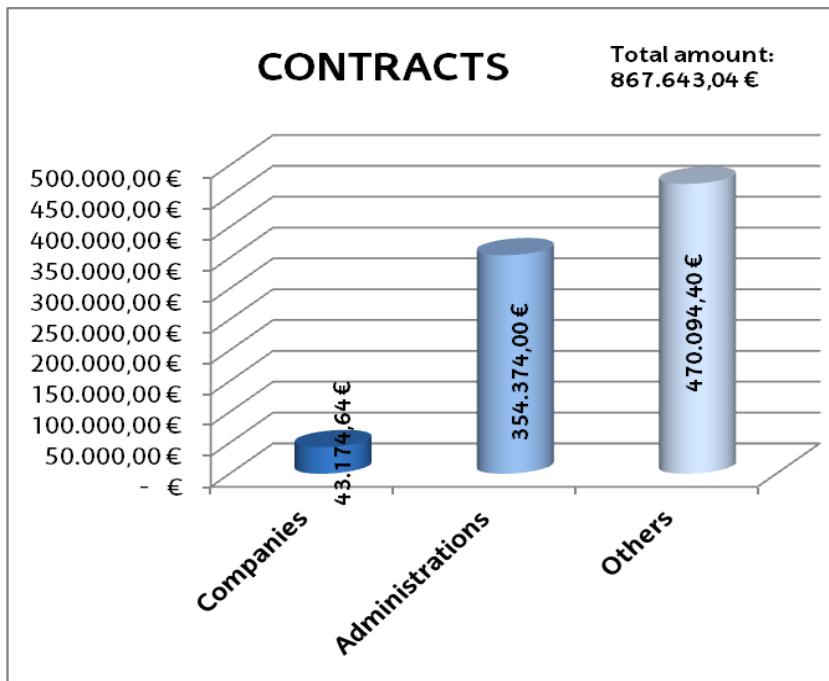

The total funding raised by the Research Groups in 2016 was 4.416.592,96 €.

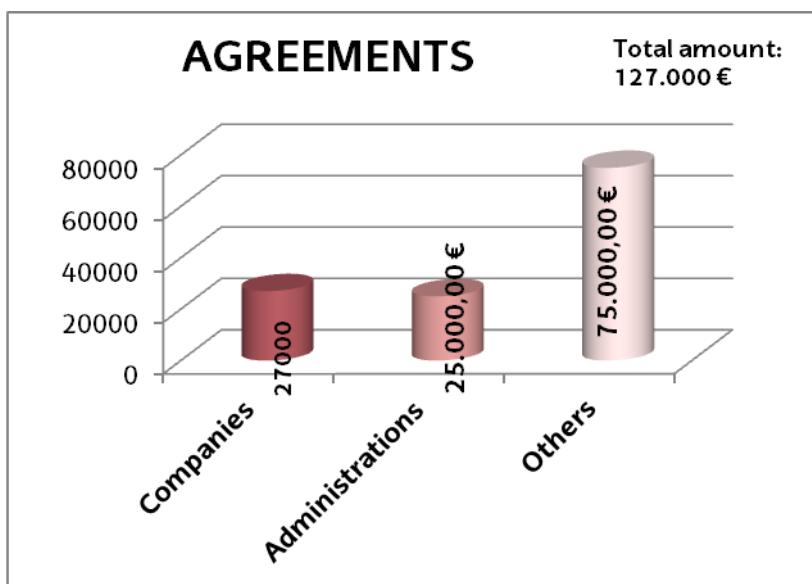

By amount, nearly 80% of the funding comes from **competitive basis of award** projects (3,421,949,92 €), from which half corresponds to the administration of the Basque autonomous community.

Regarding **contrats**, the Groups entered 28 new contracts for a total amount of 867.643,04 €; most of them corresponds to administrations, institutions, foundations and/or private associations.

Lastly, the Groups entered **agreements** with public administrations and with other entities such as institutions, foundations and private associations.

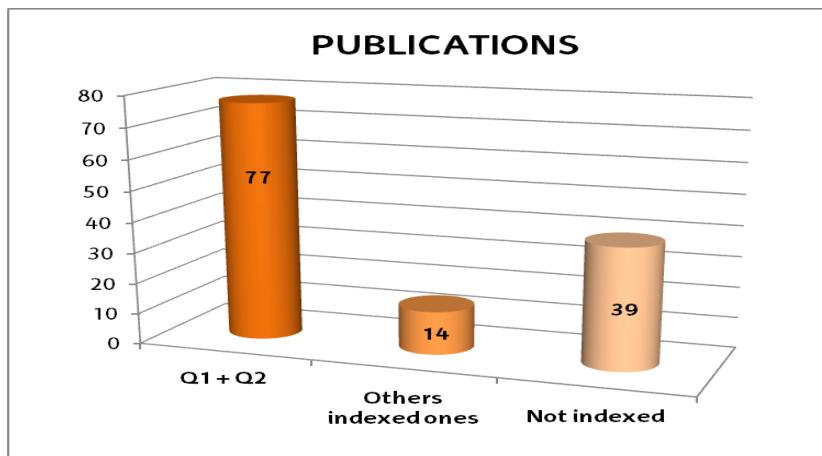

PUBLICATIONS AND PAPERS

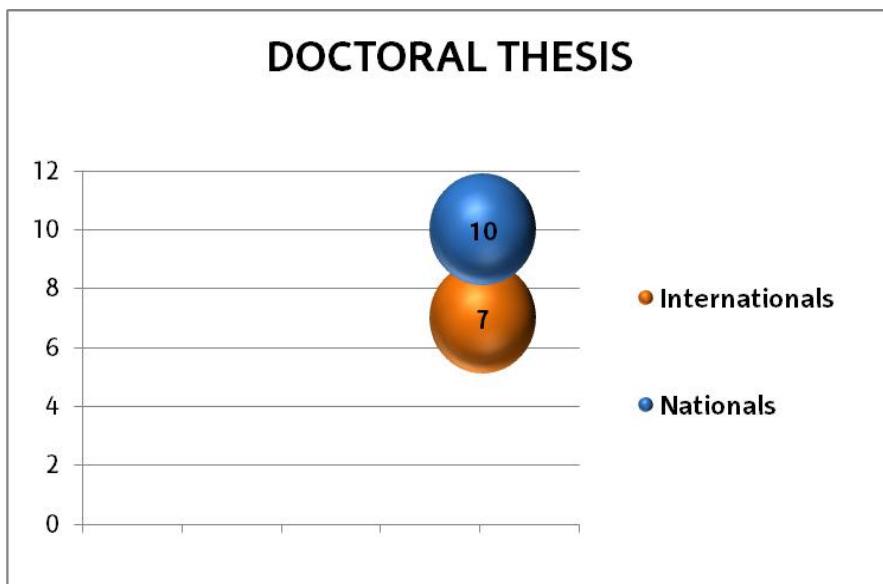

Publications in books or specialised magazines are one of the main indicators of excellent research. During the course of this year, a total of 130 publications have been carried out, and nearly 70% of those corresponds to indexed magazines; most of them belongs to the first quarter of this year.

PUBLICATIONS	NUMBER
Q1	57
Q2	20
Others indexed ones	14
Not indexed	39
TOTAL	130

DEFENDED DOCTORAL THESIS

In 2016 Lascaray Groups submitted 17 doctoral thesis; 13 of those con calificación sobresaliente Cum Laude.

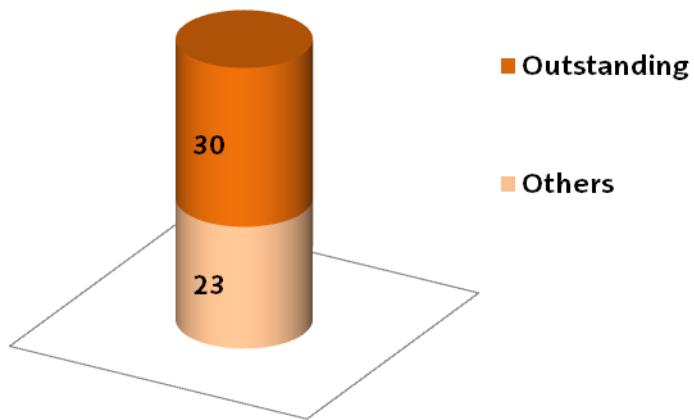

MASTERS DISSERTATIONS

In academic year 2015-2016, 53 end-of-Master's projects were conducted by Centre researchers and 30 of them scored excellently.

MASTERS DISSERTATIONS

PARTNERSHIPS AND NETWORKS

One of the best ways to contribute to the research development is through organizational structures formed by several research agents. Lascaray Ikergunea research centre research groups are involved in a total of 114 structures, and almost half of them are in international forums.

Collaborations are on the increase and in 2016, 2 new structures were created.

NETWORKS		PARTNERSHIPS	
NATIONALS	INTERNATIONALS	NATIONALS	INTERNATIONALS
14	11	41	48

Regarding the type of collaboration in the Centre, there is a total of 25 networks, which provide access to world-wide research networks.

PATENTS

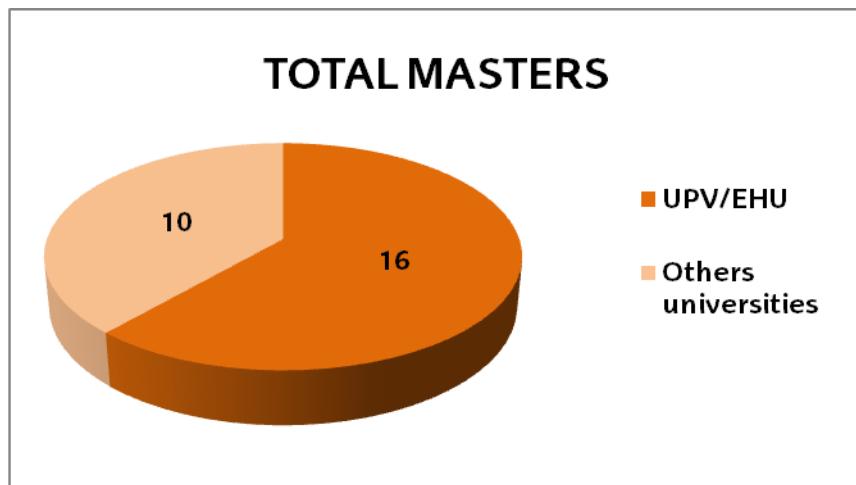

5 Research Groups have 19 patents in force, 11 of those have been granted in Spain and 5 of them are undergoing international proceedings.

GROUP	NUMBER OF PATENTS	STATUS AND SCOPE
BIOMICS	5	4 granted in Spain 1 internationally granted
Pharmacokinetics, Nanotechnology and Gene Therapy (PharmaNanoGene)	2	2 granted in Spain and being processed internationally
Built Heritage Research Group (GPAC)	1	1 submitted in Spain, with future international request
NanoBioCel	9	5 granted in Spain 1 requested in Spain 3 requested in Europe
Nutrition and Obesity	2	1 internationally licensed 1 granted in Spain

MASTERS DEGREE ORGANISATION

In the last academic year, the Groups have taken part in 29 master degrees; nearly 65% of those are official Masters of the University of the Basque Country UPV/EHU.

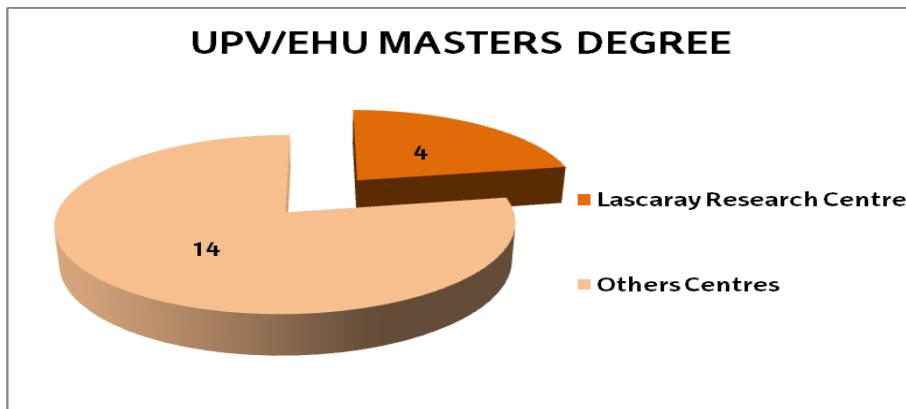

The Official Masters of the University of the Basque Country UPV/EHU have a teaching load of 60 ECTS credits, and in 2014-2015 a total of 373 students enrolled masters in which some Lascaray members took part.

14 Lascaray researchers are members of Master Academic Commissions, and 4 of them actually chair them.

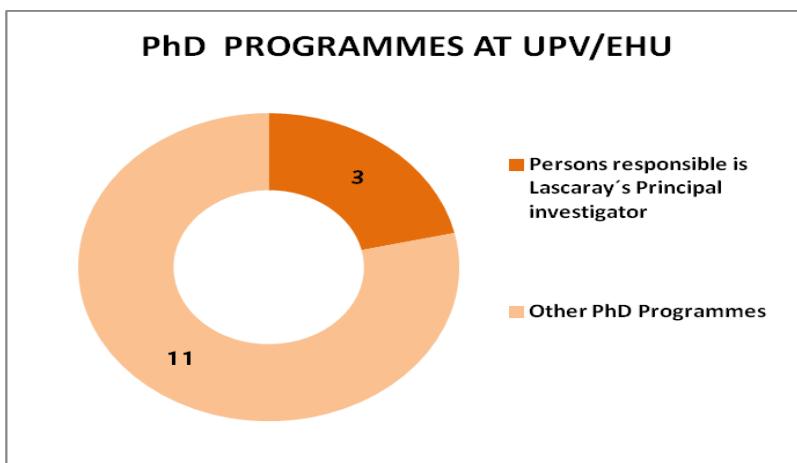

Out of the Masters taught in the University of the Basque Country UPV/EHU by

Centre Groups, over 20% of those are from Lascaray.

Apart from these official Masters at the University of the Basque Country, the Centre researchers take part in 10 Masters outside the University of the Basque Country (UPV/EHU).

As for Doctorate courses, the Groups take part in 14 programs and 3 of those are managed by Lascaray Top Researchers. Besides, 12 Centre researchers are members of Academic Commissions. 332 students have enrolled these programmes.

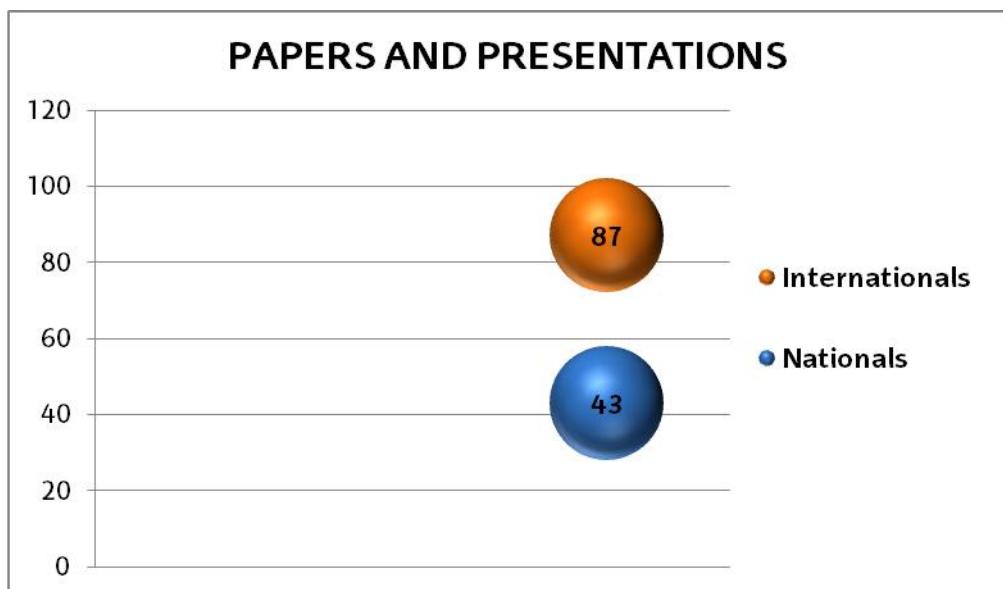

All information related to Masters and Doctoral Courses of the University of the Basque Country UPV/EHU is available at: <http://www.ehu.eus/es/web/mde>

CONGRESS ORGANISATION AND PAPERS AND PRESENTATIONS

The Centre Research Groups organised 16 national conferences in 2016.

Besides, researchers contributed with numerous communications/papers in poster, oral and paper formats. In total, the members took part in 130 of them (mostly international).

PARTICIPATION IN COLLABORATIVE QUALITY CONTROL EXERCISES

2 Groups have participated this year in collaborative quality control exercises.

GROUP	TYPE OF ACTIVITY	PARTICIPATING ORGANIZATIONS
BIOMICs	Intercomparison exercise "Study of DNA polymorphism in blood stains and other biological samples: Modules: Basic and advanced-level kinship, basic and advanced-level forensics. 2016"	Spanish and Portuguese speaking Group from the International Society for Forensic Genetics (GHEP-ISF)
Pharmacokinetics, Nanotechnology and Gene Therapy (PharmaNanoGene)	Begoña Calvo Hernández: Member of the VERIFICA (ANECA). Comission regarding Bachelor and Master Degrees in the Health Sciences branch.	National Quality Assessment and Accreditation Agency / National Quality Assessment and Accreditation Agency

AWARDS

Several Groups have been awarded this year:

GROUP	AWARD	INSTITUTE/ISSUING BODY
BIOMICs	Carolina Núñez Domingo: Award to the best Emerging Researcher	17th Conferences by the OSI Araba and the Alava Campus of the UPV/EHU
	Lourdes Basabe Desmonts: Award to the best International Publication	17th Conferences by the OSI Araba and the Alava Campus of the UPV/EHU
	Lourdes Basabe Desmonts: Invited to join Jakiunde as one of its 10 members and corresponding young academicians	Jakiunde
Pharmacokinetics, Nanotechnology and Gene Therapy	Award to the scientific contest of the Royal Academy of Pharmacy	Royal Academy of Pharmacy
	Award to the Collaboration Group	17th Conferences by the OSI Araba and the Alava Campus of

(PharmaNanoGene)		the UPV/EHU
	Second Award to the Best International Publication	17th Conferences by the OSI Araba and the Alava Campus of the UPV/EHU
	Award to communication submitted in the area of "Studies related to Design, Assessment and Implementation of Professional Pharmaceutical Services"	2nd University Conferences on Pharmaceutical Care. I Simpoderer Internacional, Granada, June, 2016
Built Heritage Research Group (GPAC)	Hispania Nostra 2016 award. Category: Intervention in the territory or in the landscape. Portilla Monumental Site. A project of integrated management of cultural heritage	
	Community Engagement Award 2016	The Society for Post-Medieval Archaeology
NanoBioCel	Edorta Santos Vizcaino: 2013/2015 SPLC-CRS Best PhD Thesis Award	SPLC-CRS
Nutrition and Obesity	Saioa Gómez-Zorita: Extraordinary Doctorate Award	

LASCARAY CENTRE'S USERS

RESEARCH GROUPS

BIOMICs

<http://www.biomics.es/>

Group Members:

- PI: Marian M. de Pancorbo Gomez. Professor of Cell Biology.
marian.mdepancorbo@ehu.eus; 945014528
- Esther M. Rebato Ochoa. Professor of Biological Sciences
esther.rebato@ehu.es
- Carmelo Aguirre Gómez. Tenured Lecturer of Pharmacology.
carmelo.aguirregomez@osakidetza.net
- Ana Maria Rocandio Pablo. Tenured Lecturer of Nutrition and Food Science.anamaria.rocandio@ehu.eus
- Marta Ines Saloña Bordas. Tenured Lecturer of Animal Biology.
m.salona@ehu.eus
- José Ángel Peña García. Tenured Lecturer of Animal Biology.
joseangel.pena@ehu.eus
- Lourdes Basabe Desmonts. Ikerbasque research. PhD in supramolecular Chemistry and Nanotechnology.
lourdes.basabe@ehu.eus
- Jaime Algorta Pineda. PhD in Medicine.jaime.algorta@ehu.eus
- Marta Arroyo Izaga. PhD in Pharmacy.marta.arroyo@ehu.eus
- Jaione Etxebarria Elezgarai. PhD in Chemical Engineering.
jaione.etxebarria@ehu.eus
- Leire Palencia Madrid. Graduate in Environmental Science. PhD student.leirepalencia@gmail.com

- Iker Alegria Lertxundi. Predoctoral fellow. Degree in Human Nutrition and Dietetics. lertxundi83@gmail.com
- Enrique Azuaje Hualde. Predoctoral fellow. Degree in Pharmacy. e.azuajehualde@gmail.com
- Ibone Espinosa Carcabilla. Graduate in Environmental Science. PhD student
- David Gamarra Fernández. Graduate in Environmental Science. PhD student davidgamarra@gmail.com
- Maite García. Predoctoral fellow. Degree in Genetics. mgar93@gmail.com
- Tamara Soledad Kleinbielen. Predoctoral student. Degree in Genetics. tamykleinbielen@gmail.com
- Endika Prieto Fernández. Predoctoral student. Degree in Biology. endikaprietofernandez@gmail.com
- Nerea Telleria Aramburu. Predoctoral fellow. Degree in Human Nutrition and Dietetics. nerea_telleria@hotmail.com
- Patricia Villaescusa Urbaneja. Predoctoral fellow. Degree in Biochemistry. patricia.villaescusa@ehu.eus

Lines of Research

- Genetic variability: Structure of current human populations and human and animal archaeological populations. Applications to population genetics, forensic genetics and evolution.
- Biomedicine: Genomics, epigenomics and miRNoma in neurodegenerative diseases, cancer and pharmacogenetics.
- Model development: Expansion in culture and differentiation of adult human mesenchymal stem cells.
- Lifestyle and its influence on health and disease.

- Microtechnologies: Development of microfluidics and nanosensors devices to use in different areas of sciences, especially in biomedicine and forensic sciences.

Molecular Epidemiology of *Campylobacter* and *Arcobacter*

<http://www.ehu.eus/en/web/inmunologia-microbiologia-parasitologia/home>

Group Members:

- PI: Aurora Fernández-Astorga. Professor of Microbiology.
aurora.fernandez@ehu.eus; 945014520
- Rodrigo Alonso Monsalve. Tenured Lecturer of Microbiology.
rodrigo.alonso@ehu.eus
- Karmele Colom Aristondo. Tenured Lecturer of Microbiology.
karmele.colom@ehu.eus
- Águeda Fernandez de Aranguiz Guridi. Tenured Lecturer of Microbiology.
agueda.fernandezdearanguiz@ehu.eus
- Cecilia Girbau Iturrealde. Contract Investigator. PhD in Biology.
cecilia.girbau@ehu.eus
- Irati Martínez Malax-Etxebarria. Temporary staff. PhD in Biology.
irati.martinez@ehu.eus
- Héctor Velasco Arregui. Predoctoral fellow. hvelasco001@gmail.com

Lines of Research

- Molecular epidemiology of *Campylobacter*.
- Genotyping of *C. jejuni* (DNA microarrays).
- Molecular Epidemiology of *Arcobacter*.
- Typing of clinical strains (*Enterococcus*).

Cardiac Electrophysiology

<http://www.ehu.eus/es/web/enpresa/eskaintza-orokorra?type=group&cod=00235&option=0>

Group Members:

- PI: Oscar Casis Sáenz. Tenured Lecturer of Physiology.
oscar.casis@ehu.eus; 945014507
- Ernesto Casis Sáenz. Tenured Lecturer of Nursing.
ernesto.casissaenz@osakidetza.net
- Mónica Gallego Muñoz. Tenured Lecturer of Physiology.
monica.gallego@ehu.eus
- Hiart Alonso Basáñez. Contract Predoctoral Fellow. Graduate in Biochemistry.hiartxu88@gmail.com
- Ainhoa Rodríguez de Yurre Guirao. Predoctoral fellow of Brazil Government
- Julian Zayas Arrabal. Predoctoral fellow. Degree in Biology.
julian.zayas@ehu.eus

Lines of Research

- Cardiac electrical remodeling in most prevalent metabolic diseases: diabetes and hypothyroidism.
- Molecular and cellular mechanisms triggering cardiac arrhythmias.

Food Processing, Quality and Safety

<http://www.ehu.eus/es/web/procayseal/home>

Group Members:

- PI: María Dolores Guillén Lorén. Professor of Food Technology.
mariadolores.guillen@ehu.eus; 945013081
- Encarnación Goicoechea Osés. Associate Lecturer. PhD.
encarnacion.goicoechea@ehu.eus
- María José Manzanos Arnaiz. Associate Lecturer PhD.
mariajose.manzanos@ehu.eus
- Andrea Martínez Yusta. Associate Lecturer. PhD.
andrea.martinez@ehu.eus
- Ainhoa Ruiz Aracama. Associate Lecturer. PhD. ainhoa.ruiz@ehu.eus
- María Luisa Ibargoitia Isasi-Iasmendi. Contract investigator staff. PhD.
marialuisa.ibargoitia@ehu.eus
- Natalia Prieto Vidal. Investigator PhD Staff. natalia.prieto@ehu.eus
- Patricia Sopelana Garay. Investigator PhD Staff.
patricia.sopelana@ehu.eus
- Jon Alberdi Cedeño. Predoctoral Fellow. jon.alberdi@ehu.eus
- Barbara Nieva Echevarría. Predoctoral Fellow. barbara.nieva@ehu.eus
- Ana María San Martín Rubio. Predoctoral Fellow.
anamaria.sanmartin@ehu.eus

Lines of Research

- Aromas of smoke, composition, preparation, and safety features.

- Composition and antioxidant activity of essential oils, extracts of herbs, spices and flavorings.
- Smoked foods with smoke and smoke flavorings.
- Study of the aroma of food through its volatile components.
- Polycyclic Aromatic Hydrocarbons (PAHs) in food.
- Characterisation of fats, oils and food lipids by unconventional techniques.
- Processes of degradation of fats, oils and food lipids.
- Oxygen-containing Alpha, beta-unsaturated genotoxic and cytotoxic aldehydes in foods.
- Fried foods and Maillard reaction. Influence of processing conditions, nature of oil and composition of the food in safety and quality of fried foods.
- Evolution of dietary lipids and antioxidant compounds in processing and digestion.

Pharmacokinetics, Nanotechnology and Gene Therapy (PharmaNanoGene)

<http://www.ehu.eus/en/web/pharmananogene/hasiera>

Group Members:

- PI: Alicia Rodríguez Gascón. Tenured Lecturer of Pharmacy and Pharmaceutical Technology. alicia.rodriguez@ehu.eus; 945013094
- Begoña Calvo Hernández. Professor of Pharmacy and Pharmaceutical Technology. b.calvo@ehu.eus
- Ana del Pozo Rodríguez. Associate Lecturer. PhD in Pharmacy. ana.delpozo@ehu.eus
- Arantxazu Isla Ruiz. Associate Lecturer PhD in Pharmacy. arantxa.isla@ehu.eus

- María Ángeles Solinís Aspiazu. Associate Lecturer PhD in Pharmacy.
marian.solinis@ehu.eus
- Andrés Canut Blasco. PhD in Medicine and Surgery University Hospital of Alava. andres.canutoblasco@osakidetza.net
- Diego Delgado Sanvicente. PhD in Pharmacy. UCAINVEST
- Josune Torrecilla Alzola. Contract Investigator. PhD in Biology.
josune.torrecilla@ehu.eus
- Paola Apaolaza Gallegos. Predoctoral Fellow. Graduate in Pharmacy.
paolastephanie.apaolaza@ehu.eus
- Eduardo Asín Prieto. Predoctoral Fellow. Graduate in Pharmacy.
eduardo.asin@ehu.eus
- Ana Beloqui García. Predoctoral Fellow. Graduate in Pharmacy.
ana.beloqui@ehu.eus
- Aritz Pérez Ruiz de Garibay. Predoctoral Fellow. Graduate in Pharmacy.
aritz.perezr@ehu.eus
- Amaia Soraluce. PhD student. Graduate in Pharmacy.
amaiasoraluce@hotmail.com
- Amaia Malet Larrea. Predoctoral fellow. Degree in Pharmacy and Nutrition. With a Diploma in Human Nutrition and Dietetics.
amaia.malet@ehu.eus
- Yanire Llorens Villar. Predoctoral fellow. Degree in Pharmacy. Specialist in Hospital Pharmacy. yanire.llorens@ehu.eus
- Ana Carmen Marquínez Fernández de Betoño. Hired Researcher. Degree in Pharmacy. anacmarquinez@gmail.com
- Monica Vicente Pascual. Hired Researcher Degree in Pharmacy.
monica.vicente@ehu.eus
- Andrea Albano. Erasmus Student.

Lines of Research

- Development of non-viral vectors for gene therapy.
- Development of nanoparticle systems for drug delivery.
- Pharmacokinetic/pharmacodynamic analysis in antibiotic therapy.
- Clinical pharmacokinetics of antimicrobial agents in critical patients.
- Pharmacotherapeutic evaluation of drugs. Pharmaceutical care.
- Legal regulation of biotech drugs.

Fluor-Phosphate Chemistry

<http://www.ehu.eus/es/web/pfq/hasiera>

Group Members:

- PI: Francisco J. Palacios Gambra. Professor of Organic Chemistry.
francisco.palacios@ehu.eus; 94501303
- Edorta Martínez de Marigorta Izaga. Tenured Lecturer of Organic Chemistry.
edorta.martinezdemarigorta@ehu.eus
- Ana María Ochoa de Retana Mendibil. Tenured Lecturer of Organic Chemistry.
anamaria.ochoaderetana@ehu.eus
- María Gloria Rubiales Alcaine. Tenured Lecturer of Organic Chemistry.
gloria.rubiales@ehu.eus
- María Fuertes Sánchez. Temporary staff. PhD in Pharmacy.
maria.fuertes@ehu.eus
- Javier Vicario Hernando. Ramón y Cajal Investigator. PhD in Chemistry.
javier.vicario@ehu.eus

- Concepción Alonso Pérez. Contract Investigator. PhD in Chemistry.
concepcion.alonso@ehu.eus
- Jesús M. de los Santos Ruiz. Contract Investigator. PhD in Chemistry.
jesus.delossantos@ehu.eus
- Zhouair es Sbai. Ikertzaile kontratatua. Contract Investigator. Graduate in Pharmacy. zouhair.essbai@ehu.eus
- María González Sáenz. Predoctoral Fellow. Graduate in Chemistry.
maria.gonzalezs@ehu.eus

Lines of Research

- Synthetic organic chemistry. Solid Phase Synthesis, Combinatorial Chemistry, Catalysis in Organic Synthesis.
- Organophosphorus compounds, amino phosphonates. Fluorinated compounds.
- Heterocyclic compounds, cycloaddition reactions, azadienes, azirines, aziridines, amino acids.
- Design and synthesis of enzyme inhibitors. Development of new active substances for drugs. Radiopharmaceuticals.

Thematic Mapping and GIS

<http://www.ehu.eus/en/web/sgiker/kartografi-eta-informazio-sistemak-zerbitzua-aurkezpena>

Group Members:

- PI: Luis Eguiluz Alarcón. Professor of Geodynamics.
luis.eguiluz@ehu.eus; 945014541
- María Cruz Porcal. Tenured Lecturer of Human Geography.
mariacruz.porcal@ehu.eus

- Luis Miguel Martínez Torres. Tenured Lecturer of Geodynamics.
luismiguel.martinez@ehu.eus
- Fernando Sarrionandia Eguidazu. Assistant Lecturer. PhD in Geology.
fernando.sarrionandia@ehu.eus
- Iosu Junguitu Iñiguez de Heredia. PhD in Geology.

Lines of Research

- Thematic Mapping and GIS.
- The Iberian Hercynian foldbelt (West Spain).
- Cartography, geomorphology and geodynamic evolution of the Basque-Cantabrian basin.

Lactiker - Quality and Safety of Foods of Animal Origin

<http://www.ehu.eus/en/web/lactiker/home>

Group Members:

- PI: Luis Javier R. Barron. Tenured Lecturer of Food Technology.
luisjavier.rbarron@ehu.eus; 945013082
- Maria Mercedes de Renobales Scheifler. Professor of Biochemistry and Molecular Biology. mertxe.derenobales@ehu.eus
- Marta María Albisu Aguado. Tenured Lecturer of Nutrition and Food Science. marta.albisu@ehu.eus
- Ana Isabel Najera Ortigosa. Tenured Lecturer of Food Technology. anaisabel.najera@ehu.eus
- Francisco José Pérez Elortondo. Tenured Lecturer of Nutrition and Food Science. franciscojose.perez@ehu.eus

- Maria Dolores Virto Lecuona. Tenured Lecturer of Biochemistry and Molecular Biology. <mailto:mailo.virto@ehu.eus>
- Iñaki Etaio Alonso. Assistant Lecturer. PhD in Food Technology. inaki.etaio@ehu.eus
- Juan Carlos Ruiz de Gordoa Arroniz. Associate Lecturer. PhD in Biochemistry and Molecular Biology. juanCarlos.ruizdegordoa@ehu.eus
- Gustavo Amores Olazaguirre. Temporary staff. PhD in Biochemistry and Molecular Biology. gustavo.amores@ehu.eus
- María Ángeles Bustamante Gallego. Temporary staff. PhD in Nutrition and Food Science. marian.bustamante@ehu.eus
- Noelia Aldai Elkoro-Iribarren. Ramón y Cajal Investigator. PhD in Food Technology. noelia.aldoi@ehu.eus
- Xabier Belaunzaran Jauregi. Predoctoral Fellow. xabier.belaunzaran@ehu.eus
- Alaitz Berriozabalgoitia Galan. Predoctoral Fellow. alaitz.berrozabalgoitia@ehu.eus
- Leire Bravo Lamas. Predoctoral Fellow. leire.bravo@ehu.eus
- Laura Zabaleta Unanue. Predoctoral Fellow. laura.zabaleta@ehu.eus
- Izaskun Valdivielso Zubiria. Contract Fellow and Investigator.
- Ane Aldalur Soto. Predoctoral Researcher. Degree in Food Science and Technology. ane.aldu@ehu.eus
- Lorea Rivera Beldarrain. Fellow in Technologist Training. Degree in Chemistry. lrivera002@ikasle.ehu.eus

Lines of Research

- Quality and traceability of traditional foods: Contribution from dairy sheep grazing to the sustainability of the mountain ecosystem.

- Assessment and production of high-quality meat from ruminants for human consumption.
- Sustainability of cheese production in small rural dairies: reduction of whey production (cheese performance increase) and recycling/reusing of whey.
- Assessment of the use of local agricultural by-products to feed sheep. Milk and cheese quality improvement.
- Influence of intake of dairy products on the risk of cardiovascular diseases.
- Obtaining of compounds of technological and sensorial interest in cheese and derived products. Biochemical and technological studies for the development and innovation of new products.
- Cheese safety: characterisation of defects and presence of biogenic amines in matured cheese.
- Optimisation and improvement of sensorial analysis methods for the assessment of cheese and meat quality.

METABOLOMIPs

<http://www.ehu.eus/en/web/metabolomip/hasiera>

Group Members:

- PI: Ramón J. Barrio Diez-Caballero. Professor of Analytical Chemistry.
r.barrio@ehu.eus, 945013055
- María Aranzazu Goicolea Altuna. Professor of Analytical Chemistry.
mariaaranzazu.goicolea@ehu.eus
- Alberto Gómez Caballero. Associate Lecturer. PhD. a.gomez@ehu.eus
- Nora Unceta Zaballa. Associate Lecturer. PhD. nora.unceta@ehu.eus

- Asier Vallejo Ruiz. Associate Lecturer. PhD. asier.vallejo@ehu.eus
- Zuriñe Abrego Íñiguez. Contract Investigator. PhD in Pharmacy. zurine.abrego@ehu.eus
- María Arbulu Fernández de Romarategui. Contract Investigator. PhD in Science and Food Technology. maria.arbulu@ehu.eus
- Itsaso Basozabal Moyua. Contract Investigator. PhD in Science and Food Technology. itsaso.basozabal@ehu.eus
- Goreti Díaz Díaz. Contract Investigator. PhD in Chemistry. goretti.diaz@ehu.eus
- Deiene García Mutio. Contract Investigator. PhD in Environmental Science. deiene14@hotmail.com
- Raquel Gutiérrez Climente. Contract Investigator. PhD in Environmental Science. raquel.cligu@gmail.com
- Laura Millán Martín. Contract Investigator. PhD in Pharmacy. laura.millan@ehu.eus

Lines of Research

- Molecular recognition techniques based on development of new biomimetic polymeric materials.
- Metabolomic studies for biomarker characterization.
- Forensic Chemical Analysis.
- Wine Metabolomics.

NanoBioCel

<http://www.ehu.eus/en/web/nanobiocel/home>

Group Members:

- PI: José Luis Pedraz Muñoz. Professor of Pharmaceutical Technology.
joseluis.pedraz@ehu.eus; 945013091
- Rosa María Hernández. Professor of Pharmaceutical Technology.
rosa.hernandez@ehu.eus
- Manoli Igartua Olaechea. Tenured Lecturer of Pharmacy and Pharmaceutical Technology.
manoli.igartua@ehu.eus
- Gorka Orive Arroyo. Tenured Lecturer of Pharmacy and Pharmaceutical Technology.
gorka.orive@ehu.eus

- Tania López Méndez. Predoctoral Fellow. Graduate in Pharmacy.
tblopez01@gmail.com
- Claudia Vairo. Predoctoral fellow. Degree in Pharmacy.
claudiavairo@hotmail.it

Lines of Research

- Microencapsulation of live cells.
- Micro and nanoparticles as delivery systems for peptide and protein vaccines.

- Non-viral vectors for gene therapy.
- Development of modified release formulations.
- Biopharmaceutical and pharmacokinetic evaluation of modified release formulations and new therapeutic systems.
- Nanofomulaciones for pulmonary administration.

Cellular and Molecular Neuropharmacology

<http://www.ehu.eus/es/web/enpresa/eskaintza-orokorra?type=group&cod=00246&option=0>

Group Members:

- PI: Joan Sallés Alvira. Tenured Lecturer of Pharmacology.
joan.salles@ehu.eus; 945013113
- Gontzal García del Caño. Giza Tenured Lecturer of Human Anatomy and Embryology. gontzal.garcia@ehu.eus
- Sergio Barrondo Lakarra. Assistant Lecturer. PhD in Pharmacy. sergio.barrondo@ehu.eus
- Maider López de Jesús. Associate Lecturer. PhD in Pharmacy. maider.lopez@ehu.eus
- Imanol González Burguera. Hired post-doctoral fellow. PhD in Chemical Sciences.. imanol.gonzalezb@ehu.eus
- Xabier Arechabala Rodríguez. Investigator in training. Graduate in Pharmacy.
- Miquel Saumell Esnaola. Predoctoral fellow. Degree in Pharmacy. miquel.saumell@ehu.eus
- Amaia Isasti Iribar. Training predoctoral fellow. Degree in Pharmacy. amaia.isasti@ehu.eus

Lines of Research

- Molecular and cellular basis of ligand-directed signaling and heteromerisation of receptors coupled to heterotrimeric α proteins:
 - Activity based on the determination of endophenotypes associated with mental and neurodegenerative diseases in postmortem human brain.
 - Activity based on the study of interaction of ligands with receptors coupled to γ proteins and in the developments of new allosteric drugs.

Nutrition and Obesity

<http://www.nutricionyobesidad.com/>

inaki.milton@ehu.eus
- María Arrizabalaga López.
maria.arrizabalaga@ehu.eus
- Asier Léniz. Predoctoral student. Degree in Human Nutrition and Dietetics.
asier.leniz@gmail.com

Lines of Research

- Functional ingredients and obesity.

- Functional ingredients and fatty liver.
- Functional ingredients and diabetes mellitus.
- Mediterranean Diet and Health.
- Childhood Obesity.
- Epigenetics: markers of obesity and fatty liver.
- Assessment of dietary habits and nutritional status of population groups.
- Assessment of gluten in foods. Accredited laboratory.

Built Heritage Research Group (GPAC)

<http://www.ehu.eus/gpac/portal/index.php/en.html>

Taldekideak/ Miembros del Grupo:

- PI: Agustín Azcarate Garay-Olaun. Professor of Philosophy and Humanities. agustin.azcarate@ehu.eus; 945013478
- Andrés Araujo de la Mata. Professor of Financial Economics. andres.araujo@ehu.eus
- Santiago Sánchez Beitia. Tenured Lecturer of Architecture. santiago.sanchez@ehu.eus
- Nieves Basurto Ferro. Lecturer of the School of Arts. nieves.basurto@ehu.eus
- Ignacio Díaz Balerdi. Lecturer of the School of Arts. i.diazbalerdi@ehu.eus
- Jose Manuel Valle Melón. Lecturer of ETU Engineering. jm.valle@ehu.eus

- Iñaki Arrieta Urtizberea. Assistant Lecturer - School of Philosophy and Education Sciences. PhD. i.arrieta@ehu.eus
- Sergio Escribano Ruiz. Temporary Lecturer of Arts. PhD. sergio.escribanor@ehu.eus
- María Jesus Pacho Fernández. Lecturer of Fine Arts School. mariajesus.pacho@ehu.eus
- Álvaro Rodríguez Miranda. ETU Acting Lecturer - Engineering. alvaro.rodriguezm@ehu.eus
- Jorge Miguel Ayán Vila. La Cierva Enginee. PhD in History. jorgemiguel.ayan@ehu.eus
- Javier García Iñañez. Ikerbasque. PhD in History. javier.inanez@ehu.eus
- Victor Araujo Corral. Hired researcher. PhD in Architecture. victor.araujo@ehu.eus
- Ander de la Fuente Arana. Graduate in Architecture. difarquitectos@gmail.com
- Oscar Fernández García. Hired researcher. PhD in Architecture. oscar.fernandezg@ehu.eus
- Ismael García Gómez. PhD in History. ism.garc@gmail.com

- Cristina Mato Fresán. Hired researcher. PhD in Art History. cristina.mato@ehu.eus
- Saroe Pascual Garcia. Hired researcher. PhD in Architecture. saroe.pascual@ehu.eus
- María Peraita Tajadura. Hired researcher. PhD in Architecture. maria.peraita@ehu.eus

- Iban Sánchez Pinto. PhD in History. iban.sanchez@ehu.eus
- Jose Luis Solaun Bustinza. PhD in Geography and History. joseluis.solaun@ehu.eus
- Verónica Andrea Benedet. External collaborator. Degree in Architecture. vbenedet@gmail.com
 - Arturo Azpeitia Santander. Predoctoral fellow. Degree in History. arturo.azpeitia@ehu.eus
 - Estefanía Calparsoro Forcada. Predoctoral fellow. Degree in Chemistry. estefania.calparsoro@ehu.eus
 - Uxua Domblás Ibáñez. Predoctoral fellow. Architect. uxua.domblas@ehu.eus
 - Izarne Elgezabal Gómez. Predoctoral fellow. Architect izarne.elgezabal@ehu.eus
 - Urtzi Llano Castresana. Predoctoral fellow. Architect urtzi.llano@ehu.eus

Lines of Research

- Identification of factors amenable to heritage protection: Development of a methodology for census and inventory to establish criteria for interpretation and common assessment.
- Tools and strategies for assessment and heritage significance: Research of chronological indicators and development of territorial analysis systems and people settlements with diachronic and thematic criteria.
- Heritage intervention and conservation: Restoration as a cognitive process and respect for the integral values of built heritage.
- Dissemination and socialization of architectural heritage: Safeguarding and exhibition of architectural and urban documentary collections and introduction into suitable museum circuits. Editing specialized scientific reference publications and thematic portals online.
- Economic and socio-cultural impact: Political, cultural identity and diversity.

- Specialised postgraduate training: "Master degree in restoration and enhancement of heritage".

Translational Oncology

Group Members:

- PI: Marta Sánchez-Carbayo. *Ikerbasque Research Professor/* marta.sanchezcarbayo@ehu.eus; 945014505.
- Antonio Garcia Blesa. PhD in Biology. antonio.garciab@ehu.eus
- Esther Arnaiz González. Predoctoral fellow. Degree in Biotechnology. esther.arnaiz@ehu.eus

Lines of Research

- To identify and characterise epigenetic, genetic and proteic profiles related to tumorigenesis and tumor progression by the optimisation of different -omics both in tumor tissues and biological fluids. Besides, the assessment of how these profiles are associated with clinical-pathological parametres is also present.
- To functionally characterise mechanism by which targets take part in carcinogenesis and tumor progression. Signalling pathways related to tumor suppressor and metastasis tumor suppressor genes by in vitro and in vivo models in an integrated manner with the characterisation of human samples are analysed.
- To translate molecular alterations of tumor tissues in epigenetic, genetic multi-parametric markers that can be detected in serum and urine and enable the diagnosis, stratification, pronostic and prediction of therapeutic response.
- The main work area focuses on bladder cancer: Other types: kidney, lung, colon, head and neck and gynecological tumors...

Parasitology and Immunoallergy

<http://www.ehu.eus/en/web/inmunologia-microbiologia-parasitologia/home>

Group Members:

- PI: Jorge Martínez Quesada. Tenured Lecturer of Parasitology.
jorge.martinez@ehu.eus; 945013804.
- Jorge Guisantes del Barco. Emeritus Professor.jorgea.guisantes@ehu.eus
- Ester Suñén Pardo. Tenured Lecturer of Microbiology.
ester.sunen@ehu.eus
- Idoia Postigo Resa. Permanent staff. PhD in Biology.
idoia.postigo@ehu.eus
- Antonio Gutiérrez Rodríguez. Contract Investigator. PhD in Biology.
jorge.martinez@ehu.eus
- Marta Gabriel Da Fonseca. Predoctoral Fellow. Graduate in Biochemistry. mgabriel20023@gmail.com
- Fardis Teifoori. Predoctoral Fellow. Master in Medical Mycology.
fardis@arbabzadeh.com

Lines of Research

- Toxocara canis and Anisakis simplex. Characterisation and study of larval allergens. Keywords: toxocarosis, Toxocara canis, allergy, nematodes, parasite immunology, zoonoses. Study the relevance of Ascaris allergens in hives of unknown origin.
- Food allergens: allergens study in food components. qPCR application for early detection and quantification of allergens of phytoparasitic origin in food.
- Detection of phytopathogenic allergen species in parasitised citrus fruit by fungal allergens. Experimental models of infection and transfer of methodologies to fruit consumption.
- Production of monoclonal antibodies against canine IgE and against plant and fungal origin allergens.

Population Systematics, Biogeography and Dynamics

<http://www.systbiogen.com/>

Group Members:

- PI: Benjamin J. Gómez Moliner. Professor of Zoology.
benjamin.gomez@ehu.eus; 945013044
- Carlos E. Prieto Sierra. Tenured Lecturer of Animal Biology.
carlos.prieto@ehu.eus
- Mikel Gurrutxaga. Temporary staff. PhD in Environmental Sciences.
mikel.gurrutxaga@ehu.eus
- Ana Isabel Puente Martínez. Temporary staff. PhD in Biology.
ana.puente@ehu.eus
- María José Madeira García. Contract Investigator. PhD in Biology.
mariajose.madeira@ehu.eus
- Aritz Ruiz González. Contract Investigator. PhD in Science.
arg.salinas@gmail.com
- Xabier Cabodevilla Bravo. Predoctoral Fellow. Graduate in Environmental Science.
xabier.cabodevilla@ehu.eus
- Amaia Caro Aramendia. Predoctoral Fellow. Graduate in Environmental Science.
amaia.caro@ehu.eus
- Luis Javier Chueca Simón. Predoctoral Fellow. Graduate in Science.
ljchueca001@gmail.com
- Oihana Razkin Aguirre. Predoctoral Fellow. Graduate in Environmental Science.
oihanarazkin@hotmail.com
- Eder Somoza Valdeolmos. Predoctoral Fellow. Graduate in Environmental Science.
eder.somoza@ehu.eus

- María Vergara Rosa. Predoctoral Fellow. Graduate in Environmental Science. m1v2r3@hotmail.com

Lines of Research

- Phylogeography and Martes genus landscape genetics (Martes martes; Martes zibellina and Martes foina) (Oder Carnivora, Mustelidae Family).
- Structure and genetic variability of fragmented populations of threatened amphibians.
- Phylogeny, phylogeography and population structure of continental molluscs.
- Systematics of Opiliones.
- Monitoring the impact of the introduction of invasive alien species on native populations.
- Studies of population dynamics of wild carnivores by non-invasive molecular techniques.
- Ecological connectivity and wildlife predictive distribution studies.
- Application of massive sequencing techniques in systematics, biogeography and population dynamics studies.

SGIKER

General Research Services (SGIker) of the Campus of Álava are located in the Lascaray Research Centre where important scientific equipment are to be found and which provide service to the scientific, technological and industrial community.

DNA Bank

http://www.ehu.eus/SGIker/es/adn/servicios_ofertados.php

Scientific Responsible: Marian M. de Pancorbo Gomez.
mariam.mdepancorbo@ehu.eus

SGIker Technician: Maite Alvarez Alvarez. maite.alvarez@ehu.eus

General information

The DNA Bank Unit of the Genomics and Proteomics General Service of the UPV/EHU is a support for basic and applied research in different areas of knowledge in Biomedical, Biological, Environmental and Food Sciences amongst others, and to assist in ensuring service in Clinical Health fields.

The DNA Bank Unit offers a full set of services aimed providing investigators with sample collections of nucleic acids (mainly DNA) from various sources.

Sensory Analysis

<http://www.ehu.es/SGIker/es/lasehu/presentacion.php>

Principal investigator: Francisco José Pérez Elortondo.
franciscojose.perez@ehu.eus

Personal:

- Maria Del Pilar Fernandez Gil. mariadelpilar.fernandez@ehu.eus
- Monica Ojeda Atxiaga. monica.ojeda@ehu.eus

General information

LASEHU is the Sensory Analysis Laboratory of the Faculty of Pharmacy at the UPV / EHU (Vitoria-Gasteiz). It is in the area of Nutrition and Food Science, which belongs to the Department of Pharmacy and Food Science. With an experience of 10 years, the team of Sensory Laboratory consists of three University Professors, one Assistant Doctor and 2 Researchers (Bachelor of Science and Food Technology), hired to carry out.

Central Analysis Service

<http://www.ehu.eus/en/web/sgiker/arabako-analisirako-zerbitzu-zentrala-aurkezpena>

Scientific Responsible: Ramón Barrio Diez-Caballero. r.barrio@ehu.eus

SGIker Technician:

- Maria Carmen Sampedro Yangüela. mariacarmen.sampedro@ehu.eus
- Alicia Sánchez Ortega. alicia.sanchez@ehu.eus

General information

The General Analysis Service mitigates the generated analytical problems in such diverse fields as Health Sciences, Biochemistry, Environment, Food, Quality Control in numerous industries, and even other related fields such as archaeology, and the study and dating of works of art.

This service helps especially groups with little chance of obtaining financing for the purchase of equipment, and also allows consolidated groups direct their efforts to tasks that are not merely analytical. On the other hand, the provision of external services to companies and institutions is therefore improved, and even allows the recruitment of new resources.

Nuclear Magnetic Resonance

<http://www.ehu.eus/en/web/sgiker/erresonantzia-magnetiko-nuklearra-emn-aurkezpena>

Scientific Responsible: Francisco Palacios Gambah. francisco.palacios@ehu.eus

Responsible: Edorta Martínez de Marigorta Izaga.
edorta.martinezdemarigorta@ehu.eus

General information

The MRI service organised in three units. The service's administrative headquarters and directorate are located at the Faculty of Chemistry (San Sebastián), which is associated with the Unites of the Faculty of Pharmacy (Vitoria) and the Faculty of Science and Technology (Leioa). This distribution aims further bring closer the department's services to direct users and facilitate their use.

The main features consist of the structural study of organic and organometallic molecules, biomolecules, materials, additives, traces... by the qualitative and quantitative determination of the components. Likewise, it is possible to approach the study of dynamic processes and structural changes with the temperature in these materials.

General information

Amongst its key objectives, the Mapping and Geographic Information Systems Service provides the university community and other groups in society (scientific, government, businesses and individuals) a territorial data bank and a large digital mapping support, both basic (topography, satellite imagery, orthophotomaps, etc..) and specific (thematic maps of geology, vegetation, soil, crop and land development, land use, urban planning, etc.).

P3 Biological Containment

http://www.ehu.eus/en/web/sgiker/content/_asset_publisher/ZcG4/content/info_laboratorionivel3?redirect=http%3A%2F%2Fwww.ehu.eus%2Fen%2Fweb%2Fsgiker%2Fhome%3Fp_p_id%3D101_INSTANCE_8WTj%26p_p_lifecycle%3D0%26p_p_state%3Dnormal%26p_p_mode%3Dview%26p_p_col_id%3Dcolumn-2%26p_p_col_count%3D3

Scientific Responsible: Marian M. de Pancorbo Gomez
(mariam.mdepancorbo@ehu.eus)

SGIker Technician: Maite Alvarez Alvarez (maite.alvarez@ehu.eus)

General information

Level-3 Biological Containment Laboratory, University of the Basque Country (UPV/EHU), has been installed at the Lascaray Ikergunea Research Centre. It occupies an area of 140 m² on the first floor of the building with an air conditioner facility on the building's outer layer and an effluent digester in the basement.

The complex includes a Technical Area with all mechanical fixtures such as air conditioners, exhaust filters, steam generators, digester, etc.; a Classified Zone where all the work is performed and therefore designed for the initial needs of the projects to be developed, in regard to amount of users, material flow, sterilisation areas, etc.; and interchange systems consisting of autoclaves, biological air-locks and material air-locks allowing the exit of biological materials and samples from the containment enclosure.

For further information about all SGIker as well as the annual service report please visit the SGIker (Research General Service) website of the UPV/EHUE on:
<http://www.ehu.eus/es/web/sgiker/home/>

UFI

Research and Training Units (UFI) are conceived as an alliance of research structures of the UPV/EHU, based on common objectives. Their purpose is to increase the extent and quality of research and training activities by improving certain indicators linked to those goals.

Knowledge generation and training are necessarily greater than the sum of the production of the structures that compose it; this allows enhancing forecasting and visibility of both research and training activities.

Below, the UFIs participating in a group located in Lascaray are listed.

Eldunanotek: Development Unit for Therapeutic Devices: Nanotechnologies, Aging and Quality of Life

<http://www.ehu.eus/en/web/ufieldunanotek/definizioa-eta-helburuak>

Coordinator: Rosa María Hernandez Martín (rosa.hernandez@ehu.eus)

Research Management Officer: María Martín Fernández (maria.martin@ehu.eus)

Groups members of the Centre

- BIOMICs
- NanoBioCel
- Nutrition and Obesity

Thematic area

Despite the many marketed drugs, there are diseases lacking available effective treatment or whose treatment produces so many side effects that its long-term use is unviable, and those related to ageing are highlighted amongst these diseases.

The UFI's main purpose is to respond to society by contributing to the improvement of the quality of life of citizens, since the multidisciplinary team has proven research experience in this field of activity. Specifically, this health problem is approached from its first stage, the search for new therapeutic targets, continuing with its validation to the development of active substances with a suitable delivery system to achieve this target and modify the development of the disease.

All this falls within the translational biomedical research that the structures forming ELDUNANOTEK perform with their clinical associates.

Food Quality and Safety

<http://www.ehu.eus/en/web/uficalidadyseguridadalimentaria/home>

Coordinator: María Dolores Guillén Lorén (mariadolores.guillen@ehu.eus)

Research Management Officer: María Martín Fernández (maria.martin@ehu.eus)

Groups members of the Centre

- Molecular Epidemiology of Campylobacter and Arcobacter

- Lactiker - Quality and Safety of Foods of Animal Origin
- Parasitology and Immunoallergy
- Food Processing, Quality and Safety

Thematic area

Food research is essential not only to offer society the most attractive and safe food with better functional, organoleptic and nutritional properties, but also to further improve knowledge of the composition and properties of food, and on changes that various types of processing and storage can have on food. This knowledge is essential to advance safely on development and innovation.

The four research structures that form this UFI enhance multidisciplinary collaboration in the field of Quality and Food Safety, specifically the field of quality and food safety throughout the process of transforming them from raw material to the final product and its consumption, from a physicochemical biochemical, microbiological, nutritional, technological and sensory perspective.

Global Change and Heritage

<http://www.ehu.eus/en/web/ufiglobalchangeandheritage/home>

Coordinator: Juan Manuel Madariaga Mota (juanmanuel.madariaga@ehu.eus)

Research Management Officer: Isabel Urrutia Samper (isabel.urrutia@ehu.eus)

Groups members of the Centre

- Built Heritage Research Group

Thematic area

This UFI aims to further improve the scientific disciplines to provide a holistic view of the problems associated with climate change, the negative effects that compromise

the cultural and natural “heritage” of humanity and sustainable development capable of correcting them. This aggregation between structures in quite distinct fields of action is based on the link between knowledge and “sectoral know how” of the Groups in the integrating and dynamic context of Global Change and Heritage.

The GPAC structure has understood this context as built cultural heritage, GHI as a nature, water and land Heritage, and IBEA as the characterisation and diagnosis of environmental impacts on both worlds. The starting point of this synergy is the “Heritage value chain as a whole”, which fits the CTS vision: Science-Technology-Society, and the perspective of sustainability.

Organic Chemistry, Synthesis and Catalysis (QOSYC)

<http://www.ehu.eus/en/web/ufiqosyc/home>

Coordinator: Claudio Palomo Nicolau (claudio.palomo@ehu.eus)

Research Management Officer: Nerea Casas Maeso (nerea.casas@ehu.eus)

Groups members of the Centre

- Fluor-Phosphate Chemistry

Thematic area

Development of new synthetic methods and chemical catalysis, and their application to the preparation of active substances with biological and industrial interest.

Groups that make up this UFI belong organizationally to the Organic Chemistry departments I and II of the UPV/EHU, and have extensive research experience in the area of Organic Chemistry, where they work on highly topical themes and therefore very competitive, such as: the study of chemical reactions by computational methods, the design of reagents and synthetic methodology consistent with the concept of atom economy, asymmetric catalysis including organocatalysis, product development for pharmaceuticals and biomedical applications with special emphasis on cancer and neurodegenerative diseases drugs.

Neurochemistry, Neuropsychopharmacology and Psychiatry

<http://www.ehu.eus/en/web/ufineuropsi/home>

Coordinator: Joan Sallés Alvira (joan.salles@ehu.eus)

Research Management Officer: Javier López de Lacalle Beltrán de Heredia
(javier.lopezdelacalle@ehu.eus)

Groups members of the Centre

- METABOLOMIPs
- Cellular and Molecular Neuropharmacology

Thematic area

Study and interdisciplinary approach of mental illness, from their origins, manifestations, evolution to their clinical expression, treatment and evaluation of responses thereto.

This UFI includes scientific groups working on biological bases (genetic, molecular and cellular biology), clinical (diagnostic and prognostic evaluation, neuropsychology, therapy), pharmacological (design and evaluation of new targets and treatments, technology for these assessments) and epidemiological (risk factors, response to clinical trials) of major mental illness (depression, schizophrenia and bipolar disorder).

The group includes investigators in neurobiology and basic medicine, and basic-applied and clinical medicine, establishing synergies amongst themselves and working with what has become known as translational science goals.

INIZIA BUSINESS INCUBATOR

Company Karuna GoodCells Technologies and entrepreneurial project Gastheiz Bihotzean have joined the 3 companies already in the business incubator since 2014 (BAIGENE, i+Med and UN-diet).

All companies located in the business incubator are distinguished by their strong technological character due to the fact that they are linked to University of the Basque Country (UPV/EHU) research Groups and are projects to develop and consolidate in Álava.

BAIGENE, S.L

<http://baigene.com/>

- I+D+i business initiative based on Sports Genetics of New Technologies applied to individualisation and improvement of: 1) sports performance, 2) injury reduction, 3) nutrition and, 4) healthy habits.

BAIGENE S.L develops:

- a) Specific genetic kits for each sport (running, cycling, judo, etc), as well as a specific genetic kit for nutrition professionals.
- b) Specialised Training in Genetics applied specifically to sports modalities aimed at professionals related to the world of health and sports.
- c) Application for IT devices to manage your own genetic kit.

i+Med, S. Coop Pequeña

<http://imasmed.com/>

- Project for the manufacture of copolymeric-hydrogels for custom biomedical applications.
 - Development of a family of sodium hyaluronate (NaHa) solution based injectable products at different concentrations.
 - Innovation in polymeric gels incorporating controlled drug release to develop a new product.

UN-DIET UNIDAD DE SALUD ALIMENTARIA GASTEIZ ELIKADURA OSASUNEKO
UNITATEA, S.L.

Unidad de Salud Alimentaria
Elikadura-osasuneko Unitatea

www.un-diet.es

- Nutritional Health Care.
 - Education and training.
 - Scientific advice and assistance.

KARUNA GOODCELLS TECHNOLOGIES, S.L

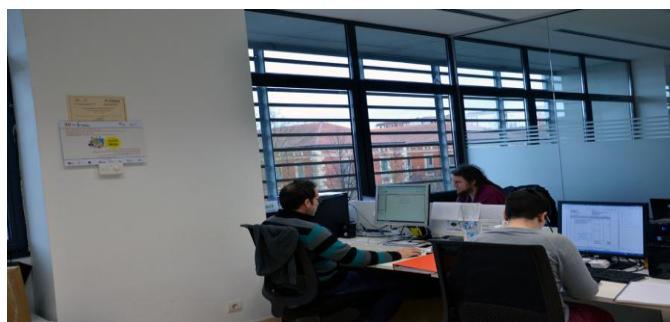

Technology-based company using the latest developments in genomic editing and regenerative medicine for the cure of diseases with genetic comSpeaker.

GASTHEIZ BIHOTZEAN

<https://gastheiz.com/>

Marketing of Gastheiz, potato beer from Alava. It is really not potato beer, it is meant to be a tribute as Gastheiz is a symbol of pride to be from Alava, a trophy for beer lovers to be able to toast and share the essence of Vitoria with the rest of the world.

All information and documentation of the business incubator is available on the Lascaray website: <http://www.ehu.eus/en/web/lascarayikergunea/empresa-mintegia>

EUSKAMPUS

Community of Poles of Knowledge

UPV/EHU, Tecnalia and DIPC are the founding members of Euskampus Fundazioa, and the University of Bordeaux is their strategic European partner. Euskampus Fundazioa is responsible for designing, coordinating and implementing activities that strengthen and accelerate the process of modernisation of the University of the Basque Country, through the development of the Campus of International Excellence Project.

Euskampus Fundazioa is an entity with an extensive history, aiming to become a benchmark and leader of the Basque Science, Technology and Innovation System, being a key agent to the revitalisation of R&D&I, its internationalisation and with a clear vocation of social responsibility and integration with its territory.

Several Lascaray research groups participate in the co-creation teams of the Euskampus poles of knowledge responsible for defining the strategic stakes and the first series of collaboration activities in the fields of training, research and knowledge transfer to address the selected targets.

FOOD & HEALTH HABITS POLE

- Nutrition and Obesity
- Food Processing, Quality and Safety

NEUROSCIENCE POLE

- BIOMICs

The Euskampus home page gathers all the information of the International Excellence Campus Project: <http://euskampus.ehu.es/>
