

Personal details

Name and surname: **Kepa (Pedro) Ruiz-Mirazo**
Place and date of birth: Madrid, 9th of December, 1970
IC (and Passport) number: 30.638.582-Y
Work address: - Dept. Logic and Philosophy of Science
P.O. Box 1249
20.080 San Sebastian-Donostia (Spain)
- Biophysics Research Unit
University of the Basque Country.
P.O. Box 644
48.080 Bilbao (Spain)
Telephone: +34 94 601 2625/3357
+34-94-6252903 (home number)
+34-665 756414 (mobile)
Fax: +34 94 601 3360
E-mail: kepa.ruiz-mirazo@ehu.es
kruizmirazo@hotmail.com
Web-page: <http://www.sc.ehu.es/sfwpbiog/KRuiz-Mirazo/Kepa.html>

Current Position

Ramon y Cajal fellow (post-doctoral researcher) at the University of the Basque Country (Biophysics Research Unit / Dept. of Logic and Philosophy of Science).

Academic and professional background

First Degree (5-year degree) **in Physics**. (Specialization: *Solid State Physics*.) University of the Basque Country (UPV/EHU) (1989-94).

Master in “European Studies on Society, Science and Technology” (EEST) by the Univ. of Notre Dame de la Paix in Namur (Belgium) and the UPV/EHU (1994-95).

Ph. D. in Sciences (Complex Systems) by the University of the Basque Country (1996-2001). Ph. D. Program in ‘Complex Systems’: *Quality Program MEC: 1995-97*. UNESCO-Specialization Code: 720501-720102. Highest mark possible (sobresaliente ‘cum laude’) obtained. Two years later: *Excellent Dissertation Award by the University of the Basque Country*.

Lectureship of Physics and Mathematics at the Department of Fundamental Sciences of Mondragon Polytechnic School in MU-Mondragon University, Basque Country, Spain. (Sept. 2002 – Feb. 2003 and Sept. 2003 – Feb. 2004).

Main research interests

Complex Systems, Biophysics, Bioenergetics, Minimal Cellular Systems, Origins of Life, Theoretical Biology, Artificial Life, Astrobiology.

Previous research fellowships

Erasmus grant (for ‘post-graduates’) to stay at the University of Notre Dame de la Paix of Namur (Belgium) and carry out the second half (6 months) of the Master in “European Studies on Society, Science and Technology” (March-Sept. 1995).

Pre-doctoral fellowship provided by the University of the Basque Country (UPV-EHU), during 4 consecutive years, to do research leading to the development of a Ph. D. dissertation on “Physical conditions for the appearance of autonomous systems with open-ended evolutionary capacities”. (October 1996 - November 2000) -- *Excellent Dissertation Award*.

Invited student to the “1998 Complex Systems Summer School”, organized by the Santa Fe Institute (SFI), held at The College of Santa Fe, New Mexico, USA, during the four weeks of June 1998.

Invited researcher for a two-month stay (July-September, 1999) at the University of Newcastle (Australia), to work with the Complex Dynamic Systems Research Group led by Professor Cliff Hooker.

Post-doctoral fellowship provided by the National Institute of Aerospace Technology (INTA) of the Spanish Government to work at the Centre for Astrobiology (CAB) in Madrid (April 2002 - September 2002)

Post-doctoral fellowship provided by the MECD (Spanish Government) to collaborate with Pier Luigi Luisi’s group at ETH-Zürich (Switzerland), studying proto-cellular systems in vitro. (February – September 2003). Continuation in Rome, Italy, with the same research group (Dept. of Biology, Roma Tre University). (January 2004 – March 2005).

Post-doctoral fellowship provided by the Basque Government to become re-inserted in Alvaro Moreno’s research group on philosophy of biology. (Oct 2005 – Dec. 2006).
